Re: Acceptance of Amended Notice of Intention, Continental Lime, Inc., Cricket Mountain Quarry,  
M/027/006, Millard County, Utah

Dear Mr. Kastner:

Thank you for your amended Notice received by the Division on May 28, 1999. The proposed amendment is to relocate a mobil trailer to be used for a change room / lunch room for the quarry personnel. The amendment also proposes to put in a septic system and a 10,000-gallon water tank. The present structure will be used for a storage facility. The application for the proposed project will be located in Section 36, T21S, R10W, SLBM, Millard County, Utah.

Given that these are temporary facilities, the Division accepts the amendment as outlined. Reclamation of the trailer and associated parking space will follow the approved plan. As this is located on your state mineral lease please obtain acceptance from the School and Institutional Trust Lands Administration (SITLA) before beginning construction.

Please be certain that you stockpile topsoil material to help ensure successful revegetation efforts upon final reclamation of the minesite. If the area being mined is a solid rock outcrop, or if the land surface is very rocky, then soil stockpiling is probably not possible. However, even the first few inches of undeveloped material is worth saving to aid in later revegetation efforts, and future regulatory release from reclamation requirements.

Thank you for your cooperation. If you have any questions regarding this letter, please contact me at (801) 538-5321.

Sincerely,

Tom Munson  
Senior Reclamation Specialist
